

St Norbert
College

REMOTE LEARNING TERM TWO

YEAR 7-10 STUDENT EXPECTATIONS

1	Log into MS Teams at the commencement of each of your regular timetabled classes. Open the team for your timetabled class.	
2	Use a 'like' to indicate your attendance. This will be recorded by your teacher.	
3	Check in SEQTA and MS Teams for instructions and resources regarding the lesson.	
4	Teachers will indicate a method for conducting the lesson either through class meetings, live posts in MS Teams or through work uploaded to SEQTA.	
5	Each week students will need to submit one task to their teacher. This work will be checked and recorded by your teacher.	
6	Physical Education and some electives classes will not run due to the practical nature of the courses. Students in these classes will instead be required to continue with ongoing projects or complete learning tasks sent to them by their teachers.	
7	When not participating in a timetabled class, students are expected to complete independent work or complete tasks assigned by their teachers.	
8	Notify your teacher of any technical problems immediately.	

All College policies including the College Code of Conduct apply during Remote Learning
